- [Walnut Hollow® Design Borders A #28076](#)
- [Walnut Hollow® Design Borders B #28077](#)
- Candles
- Blue Painters Tape
-

Instructions

Note: Items not listed above, but referred to in the instructions, are found inside the Beginner Set. Refer to color photos for application and placement.

1. To determine the amount of Metal Border needed, wrap the Metal around candle and add 1". Cut Metal with Metal Scissors.
2. Place Metal Border onto Design Sheet. Tape in place with painter's tape.
3. Use Texture Tool to emboss design by rubbing over Metal until design details are revealed.
4. Attach Nylon Detailer Point onto the Handle. Place Metal on Acrylic Mat. Use Point to refine and define the embossed designs on both the front and back of each Metal Border.
5. Attach any Roller onto Handle and use to decorate edges. Place Metal piece on the Foam Mat. Use ruler to help keep designs straight.
6. Use Metal Tape to adhere decorated Metal Borders around candles.

Other ideas:

1. For added decoration, insert Metal Tacks (#28023) into Metal.
2. Use Solvent Ink (see Ink 101) and apply color to embossed Metal.
