

Embossed Holiday Card and Tag

Designed by Chris Wallace for Walnut Hollow®

Materials:

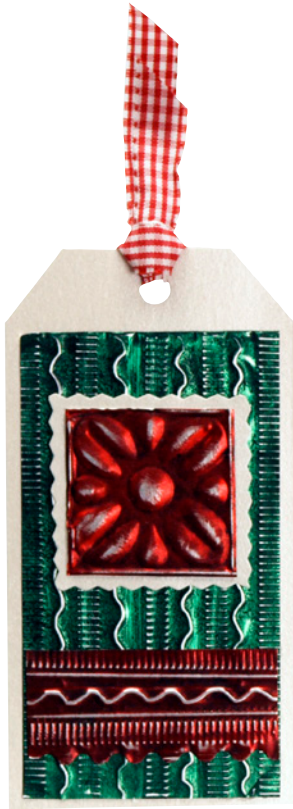

- Walnut Hollow® Creative Metal™:
 - [27996 Beginner Set](#),
 - [29661 Metal Squares – Red](#),
 - [29675 Metal Squares, Green](#),
 - [28076 Design Border – A](#),
 - [28016 Metal Tape](#)
- White cardstock – (card) 5 ½" x 8 ½", (tag) 4 ¾" x 2 ½" and 1 ¾" square
- Red cardstock – 4" x 5"
- Black acrylic paint
- Ribbon
- Other supplies: brush, decorative scissors, fine sandpaper, hole punch, paper glue, paper towel
- Note: Items used below, but not listed in supplies, are included in Beginner Set.

Instructions:

Card –

Note: Refer to photo for placement.

1. Attach Nylon Detailer Point and a Medium Roller onto Handle. Lay stocking pattern on top of Green Metal Square. Trace around stocking with Detailer. Cut with Metal Scissors. Lay stocking pattern on Red Metal Square and trace toe, heel, and cuff patterns with Detailer. Cut with Scissors.
2. To emboss Metal, use Detailer to "doodle" on back of stocking. Press lightly with the Detailer to write "Happy Holidays" on cuff. Flip cuff over and go over the letters, pressing a little harder so they are embossed on the front of the cuff. On the back of the cuff, also add short squiggle lines on sides.
3. To antique Metal, thin black acrylic paint with water. Use brush to apply paint to all Metal surfaces. Use paper towel to blot excess paint off metal. Let dry.
4. Use fine sandpaper to highlight embossing on Metal pieces.
5. Fold white cardstock in half.
6. Use paper glue to adhere ribbon on red cardstock, and adhere red cardstock on top of white card. Tie small bow and adhere where ribbon crosses.
7. Use Metal Tape to attach toe, heel, and cuff to stocking. Attach stocking to card.

Tag –

1. Cut Green Metal 2 ¼" x 4". Cut Red Metal strip 1" x 2 ¼", and square 1 3/8".
2. Emboss back of Green Metal using Ruler with Medium Roller, leaving a small space between embossing. Use Nylon Detailer to make a wavy line been Roller embossing.
3. Emboss small Red Metal square by placing front of Metal on top of Design Border. Use Texture Tool to emboss design.
4. Emboss Red Metal strip the same way the Green piece was embossed. Cut one edge with decorative scissors.
5. Antique Metal as above. Assemble pieces and glue in place as shown in photo.
6. Punch hole in top of Tag. Tie with ribbon.
