

It's a Cupcake Birthday!

Designed by Chris Wallace for Walnut Hollow®

It's really easy to make great scrapbook pages embellished with Creative Metal™ Colored Metal Squares. Add your photos to ready-to-go scrapbook pages, and have fun adding touches of metal.

Materials:

- Walnut Hollow® Creative Metal™
 - [Colored Metal Squares, #29675 Green](#)
 - [#28016 Metal Tape](#)
- Paper punch, cupcake design
- Ready-to-go scrapbook kit
- [Beacon® Zip-Dry paper glue](#)
- Optional supplies: "Happy Birthday" rubber stamp, black ink pad

Instructions:

1. Punch cupcakes out of Green Metal Squares using paper punch.
Note: It will not hurt the punch to cut metal. In fact, it will sharpen the punch.
2. Create scrapbook page using Zip-Dry to adhere papers and add photo to ready-to-go scrapbook page.
3. Use Metal Tape to adhere cupcakes to page. Use scissors to cut Tape to fit on back of each part of the cupcake and press in place. Remove backing from Tape and press on page.
4. If a sentiment is not included in the scrapbook kit, use a rubber stamp with black ink to add to the page.
