

# Just for Riley

*Designed by Janet Wilhelm for Walnut Hollow®*

## Materials:

- [Walnut Hollow® #27996 Creative Metal™ Beginner Set](#)
- [Walnut Hollow® Colored Metal Squares: #29680 Orange, #29679 Yellow, #29027 Aluminum, #29676 Gold](#)
- [Walnut Hollow® #28016 Metal Tape](#)
- 8" Paper Mache Letter
- Black acrylic paint
- Other supplies: Decorative scissors, fine sandpaper or sanding block, foam brush
- Optional: Alphabet stencil

## Instructions:

Note: Items used below, but not listed in supplies, are included in the Beginner Set.

1. Use foam brush to paint paper mache letter with black acrylic paint. Let dry. Apply second coat if needed.
2. Arrange Metal Squares on letter. Lightly rub Metal with finger to reveal shape of letter. Use scissors to cut Metal as desired to fit on top of letter.
3. Attach various Roller Points on Handle and emboss Metal pieces by rolling over Metal. Also attach Nylon Detailer Point and/or Metal Detailer Point to add your own "doodles" to the Metal pieces. Place Metal pieces on foam mat to create a deeper embossing look. You may use either side of the Metal to emboss or deboss.
4. To emboss a name, use the Nylon Detailer to write name on colored side of the Metal. An option would be to use an alphabet stencil for each letter of a name.
5. Once you are happy with the embossing, adhere each piece of Metal to the paper mache letter with Metal Tape. Cut Metal Tape to fit back of piece. Press in place. Remove backing and press onto letter.
6. Use decorative scissors to cut Metal piece with name. Adhere this Metal piece on top of other Metal using Metal Tape as above.
7. For a final decorative touch, use fine sandpaper to lightly sand embossed areas on Metal pieces.
