Instructions:

1. Choose name to burn on wallet. Use stencil and pencil to trace name onto wallet.
2. Before using Creative Leather Branding™ Tool, read and follow all safety precautions on packaging. Attach Calligraphy Point to tool. Tighten with pliers. Secure stand to hard surface with tape. Turn switch "ON". Place tool on stand. Plug into electric outlet. Let heat for 4-5 minutes. Practice on a scrap of leather before beginning project. Some leather will burn quickly and some burns slowly. If the brands get discolored from the leather, rub them over a piece of fine sandpaper.
3. Use Calligraphy Point to burn the traced letters. When complete, remove the Calligraphy Point with pliers and drop Point into a glass or metal container. Attach the Heart Brand. Tighten with pliers.
4. Use Heart Brand to create a design below the name. When complete, turn switch "OFF". Unplug tool and let cool.
