

"Love"

Designed by Chris Wallace for Walnut Hollow®

It's really easy to make great scrapbook pages embellished with Creative Metal™ Colored Metal Squares. Add your photos to ready-to-go scrapbook pages, and have fun adding touches of metal.

Materials:

- Walnut Hollow® Creative Metal™
 - [#28013 Mini Tool Set](#)
 - [Colored Metal Squares, #29676 Gold](#)
 - [#28016 Metal Tape](#)
- Ready-to-go scrapbook kit
- Paper punch, any edge style
- Paper punch, leaf
- [Tsukineko® Staz-On, Timber Brown](#)
- [Tsukineko® Dauber](#)
- [Beacon® Zip-Dry paper glue](#)
- Other supplies: Fine sandpaper, ruler, scissors

Instructions:

Note: Items used below, but not listed in supplies, are included in Mini Tool Set.

1. Cut Gold Metal Square with scissors to measure 2 ¼" x 4". Decorate edge of Metal with punch.
Note: It will not hurt the punch to cut metal. In fact, it will sharpen the punch.
2. Attach Metal Detailer Point to Handle. Lightly press into the Metal with the Point to handwrite "Love".
3. Place Metal face down on Mat included in Tool Set. Re-trace the handwriting pressing on Metal. Flip Metal over to see the embossed "Love".
4. Punch out 7 Metal leaves. Place each leaf on Mat to emboss veins using Metal Detailer Point.
5. Add Timber Brown ink with Dauber to all Metal pieces. Let dry.
6. Use fine sandpaper to highlight and reveal all embossing on Metal pieces.
7. Create scrapbook page using Zip-Dry to adhere papers. Add photos and paper embellishments to ready-to-go scrapbook page.
8. Use Metal Tape to adhere Metal pieces to page. Use scissors to cut Tape to fit on back of pieces and press in place. Remove backing from Tape and press onto page.
