

Metal Time

Designed by Chris Wallace for Walnut Hollow®

Materials:

- [Walnut Hollow® # 1911 Oval Plaque](#)
- [Walnut Hollow® #23855 3 Piece Clock Kit](#)
- [Walnut Hollow® # 27996 Creative Metal™ Beginner Set](#)
- [Walnut Hollow® Colored Metal Squares, #29663 Pink](#)
- [Walnut Hollow® #29691 Design Squares – D](#)
- [Walnut Hollow® #18016 Metal Tape](#)
- [MinWax®: Pre-Stain Conditioner and Wood Stain - Rosewood](#)
- Paper: (1) 12" x 12" decorative paper, (2) pieces coordinating cardstock colors (we used brown and green)
- Other supplies: 3/8" drill bit and drill, foam brush, paper glue, paper towels, pencil, ruler, fine sandpaper, decorative scissors

Instructions:

Note: Items used below, but not listed in supplies, are included in Beginner Set.

1. Using pencil and ruler, find center of Oval Plaque. Drill 3/8" hole for clock movement.
2. Following instructions on packaging, apply Pre-Stain Conditioner on the Plaque using a foam brush. When dry, sand lightly. Use scissors to cut decorative paper to fit top of Plaque, and (4) 2" brown cardstock squares. Use decorative scissors to cut (8) 1 ¼" brown cardstock squares, (8) ¾" green cardstock squares.
3. Use decorative scissors to cut (5) 1 ½" Pink Metal Squares. To decorate Metal Squares, attach Nylon Detailer to Handle. With pink side down, "doodle" a design on the back of each Square. Attach any Medium Roller to Handle and roll on back of each square on all edges for border. Turn Squares over and sand lightly to remove pink color on raised embossed areas only.
4. Refer to photo for placement of paper and Metal. Adhere all paper with paper glue. Adhere Metal with Metal Tape. Use scissors to cut Tape to fit on back of each Square and press in place. Remove backing from Tape and press Metal on brown cardstock square.
5. Attach numbers, clock movement and hands following directions on back of packaging.
