Instructions:

1. To prepare box for painting, use Hand Sander to lightly sand wood surface. Remove dust with paper towel or soft cloth.
2. Use brush to apply paint to wood surface. Let dry.
3. Use rubber stamp and coordinating paint to stamp design over paint. Let dry.
4. Use brush to paint each letter a different color. Let dry.
5. Use Hand Sander to distress the edges of the box for an antique effect. To distress means to remove some of the paint where it would normally wear from being used.
6. Use glue to adhere decorative tags and paper embellishments to top of box. Use glue to attach wooden letters.
7. Before using Creative HotMarks™, read through and follow all safety precautions on packaging. Attach Swirl Stamping Point to tool. Tighten with pliers. Secure stand to hard surface with tape. Turn switch "ON". Place tool on stand. Plug into electric outlet. Heat for 4-5 minutes. Practice on a piece of wood to get a feel for the tool and to also determine how long to hold the stamp against the wood.
8. Use Swirl Stamp to make a swirl design on top of lid next to some of the paper embellishments. When complete, turn "OFF", unplug tool and let cool.
9. Apply 2-3 coats of spray varnish for a protective finish.
10. Use glue to attach glass bubbles.
11. Use glue to attach washer.
12. Use Screwdriver to screw wing nuts in place.
